Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. **Claims 27-36** are rejected under 35 U.S.C. 102(e) as being anticipated by (Weckstrom et al. 2004/0102196 A1).

Regarding **claims 27, 30, 32 and 35**, Weckstrom discloses a method of enabling a mobile station in a wireless network to originate or receive a call during a mobile terminating location request, comprising:

- initiating a mobile terminating location request. See paragraph [0062]; and
- sending a network command to the mobile station during processing of the mobile terminating location request, wherein Weckstrom et al. teaches of sending a message to the said MS in order to inform it of the location procedure. See paragraph [0063].

Regarding **claims 28 and 33**, according to **claims 27 and 32**, where sending a network command to the mobile station comprises sending a network command to the mobile

station immediately following the mobile terminating location request. See paragraph [0063].

Regarding **claims 29, 31, 34 and 36**, according to **claims 27, 30, 32 and 35**, where sending a network command to the mobile comprises sending a direct transfer application part message or a radio resource location protocol request to the mobile station.

Response to Arguments

Applicant's arguments with respect to **claims 27-36** have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
